“Oasis, helping you get through the hurdles in immigration...”

# 5 Great Upcoming Pathways To Move In To UK

Citizens from all over the world move to the UK every year with hopes of settling and living in UK with their dream job or exploring a promising business opportunity, or simply because they feel a connection to the place, they have been wanting to live in. Today the United Kingdom is one of the most popular destinations for a better life because it offers a great way to harness your potential and enjoy a dynamic new culture simultaneously.

The UK is always and still a major & popular destination for those looking at an overseas career. The country is a favored choice for immigrants not only for its educational but also the professional opportunities that it offers. Apart from this working in the UK comes with its own benefits. However, the UK government has launched some of the new ways and visas that can help you get in this dream country and be your own king!

## 1 SCALE-UP VISAS

The aim of the Scale-up visa is to make it easier and quicker for companies experiencing rapid growth to hire the best skilled labour from around the world.

*Under this visa:*

- \* An individual must hold a high-skilled job offer with a salary of at least £33,000 and meet an English language requirement.
- \* Scale-ups will be able to apply to use the route through a fast-track verification process.

*To be eligible for this visa:*

- \* An annual average revenue or employment growth rate over a 3-year period greater than 20%.
- \* A minimum of 10 employees at the start of the 3-year period.

The route is set to launch in Spring 2022 and will be open to applicants who pass the English language requirement and have a high-skilled job offer from an eligible business with a salary of at least £33,000 (higher than the salary requirement of £25,600 for Skilled Workers).

Both the Skilled Worker visa and the Scale-up visa are part of the points-based immigration system and require a job offer from a UK employer. However only the Skilled Worker visa requires applicants to be formally sponsored.

## 2 HIGH POTENTIAL INDIVIDUAL VISA

The High Potential Individual route will be open to high potential graduates from top global universities. The definitions and eligibility requirements for 'top global university' and 'high potential graduates' have yet to be defined, but are likely to respectively include a closed list of government-approved institutions, and characteristics such as age, salary and postgraduate qualifications.

*This route will allow:*

- \* Graduates to relocate to the UK without first having secured a job.
- \* Settlement in the UK – again, the parameters and requirements of eligibility for permanent residence under this route have yet to be defined.

### 3 GLOBAL BUSINESS MOBILITY VISA

This route will allow innovative overseas businesses greater flexibility in transferring workers to the UK to establish and expand their businesses.

*This route will allow:*

- \* People who need intra-company transfers.
- \* Facilitate the establishment of branches or subsidiaries.
- \* Enable workers to come to the UK to undertake a secondment or short assignments.

### 4 INNOVATOR VISA

A 'revitalised' Innovator route has been announced which will enable overseas innovators and entrepreneurs to start and operate a business in the UK that is either venture-backed or is harnessing innovative technologies.

*Under this route:*

- \* There will be greater flexibility as there will no longer be a requirement for applicants to have at least £50,000 in investment funds, provided that the applicant has sufficient funds to grow their business. Applicants will also be able to undertake work outside their primary business on this route.
- \* Business eligibility criteria will be streamlined and simplified for applicants who will need to demonstrate that their business has the potential to grow, add value to the UK, and remain innovative.
- \* An option will exist to fast-track applications whose business ideas are 'particularly advanced' will have this option available to them.

### 5 GLOBAL TALENT NETWORK

A Global Talent Network is set to be launched in 2022 which is intended to help identify talented people to bring to the UK to work in key science and technology sectors.

Launching initially in the Bay Area and Boston in the US, and in Bengaluru in India, the Network plans to work with UK businesses and research institutes to identify UK skill needs. It will subsequently source talent from overseas universities, innovation hubs and research institutions to bring to the UK.

The Network will also provide individuals with tailored advice and links to UK-based opportunities. While there is little information currently available, it has clearly been introduced to advance the Government's intention to attract the best talent from around the world.

Concludingly, Oasis Resource Management, who is one of the best immigration consultancy in New Delhi helped and assisted hundreds of immigrants to move aboard. Thus, if you are the one looking for overseas assistance then reach out to us!

## The New Immigration Route For Indian Nationals, 'Youth Mobility Scheme'

### ***What is the Youth Mobility Scheme?***

The Youth Mobility Scheme visa is available to young adults from participating countries and territories who wish to experience life in the United Kingdom for a period of up to two years.

Youth Mobility Scheme visa holders are allowed to work in the UK, other than as a professional sportsperson or sports coach. They may also undertake studies.

Dependants are not eligible to apply on the Youth Mobility Scheme visa route and it is not a route that

leads directly to settlement in the UK. However, prior to a Youth Mobility Scheme visa expiring it may be possible to apply from within the UK to switch into another immigration category, such as the Skilled Worker route or the Start-up route. Our immigration barristers can advise on potential long term immigration routes, including routes which can lead to settlement in the UK.

### ***What is the Youth Mobility Scheme ballot?***

Nationals or citizens of certain countries and rightful holders of passports issued by certain territories must submit an expression of interest in applying for a Youth Mobility Scheme visa and be issued with an invitation to apply before they are eligible to apply for entry clearance on the Youth Mobility Scheme.

You will need to submit an expression of interest by entering the Youth Mobility Scheme ballot if you wish to apply for a Youth Mobility Scheme visa and you are from:

- \* Hong Kong (if you have an SAR passport)
- \* Japan
- \* South Korea
- \* Taiwan
- \* India

The Home Office will select at random all those who are invited to apply for a Youth Mobility Scheme visa from the pool of individuals who submit an expression of interest by entering the ballot.

### ***Eligibility Criteria for Indian nationals***

Youth Mobility Scheme rules and eligibility criteria are confusing as different rules apply to Indian national applicants than those for other countries. If you are an Indian national applying for a place under the scheme you will need to:

- \* Meet the general eligibility criteria for UK entry clearance – in other words, you can't have criminal convictions for certain offences and
- \* Pay an application fee – the amount is currently £244 and

- \* Pay the Immigration Health Charge – the amount is currently £1,248 and
- \* Provide your passport or travel paperwork to prove your identity and nationality and
- \* Meet the financial requirement - you will need to have held the required minimum specified money for at least twenty-eight days and
- \* Provide evidence of sponsorship from India. The sponsorship documents cannot be more than six months of age. Sponsorship is limited to 3,000 places on the scheme for Indian nationals and
- \* Meet the education qualification or work experience requirement – to meet the education eligibility criteria you will need to have a qualification equal to or above RQF level 6 and be able to provide evidence of the qualification from the institution that gave you the qualification. Alternatively, you can meet the criteria through work experience. This means you need to have a minimum three-years work experience in a job that is equivalent to an eligible occupation contained in the skilled occupation list. This list is produced by the UK government. Evidence of work experience is required. Immigration lawyers can advise on the best evidence to produce in support of your Youth Mobility Scheme application.

### ***How much it costs***

You will need to:

- \* pay the application fee
- \* pay the healthcare surcharge, which is usually £470 per year - you can check how much you'll have to pay
- \* prove you have enough personal savings.

### ***Money to support yourself***

- \* You must have at least £2,530 in your bank account to show you can support yourself in the UK.
- \* You will need to have had the money available for at least 28 days in a row. Day 28 must be within 31 days of applying for this visa.
- \* You'll need to show proof of funds while applying.

For more latest immigration updates keep in touch with Oasis Resource Management, leading immigration consultancy making your efforts more visible and lasting. Or if want assistance or guidance in any aboard services then hop on to our office and get your doubts cleared from our experts.

## **Looking For An Amazing Opportunity To Move To Netherland? This Is Your Chance!**

The Netherlands is becoming one of the most popular countries on the planet for expats, drawing in a record number of international students and young professionals each year. In fact, for the 2018 academic year, over 122,000 international students from 164 different countries are currently enrolled in institutions of higher learning throughout the Netherlands.

And due to the business incentives that are offered to its residents, many young people are moving to

the Netherlands to begin their careers or to take up internships in their intended fields of study.

Netherland is the city that offers world-renowned museums, historical monuments, countless of gorgeous canals and a vibrant nightlife. It's a very cool city, so it's no wonder that it's one of the most visited cities in the world! And nowadays more and more people are wishing to move to this lively city due to its new upcoming opportunities.

## START-UP VISA

If you wish to work in the Netherlands as a start-up entrepreneur. You can definitely get applied in this visa type. A residence permit as 'start-up' gives ambitious starters a year to start an innovative company in the Netherlands. One condition in this regard is that they are supervised by a reliable supervisor (facilitator) in the Netherlands. Start-ups receive a great deal of support in the Netherlands to develop into successful enterprises. This is good for the entrepreneur, but also good for employment and the economy.

This residence scheme is being introduced in the form of a pilot and has a duration of 4 years. Start-up companies often have a remuneration structure that does not fit in with existing procedures, such as those for a residence permit for highly skilled migrants. With this pilot 'essential start-up personnel', starting, innovative companies in the Netherlands will be able to attract and retain employees with specific high-quality expertise, experience and skills in an early phase of the development of the start-up company.

Why start up a business in the Netherlands? The Netherlands is in the top 5 of the most competitive economies in the world. We have much to offer foreign entrepreneurs and investors: the accessibility by road, rail, ports and airports is excellent. In addition, our digital infrastructure is one of the fastest and most reliable in the world.

With a good business climate also come good living conditions. The Netherlands also takes a world-leading position in (international) education, healthcare and recreation.

## CONDITIONS FOR THE ESSENTIAL START-UP PERSONNEL

There are general guidelines that apply to everyone applying. Besides these conditions the following conditions apply for you and your employee:

- \* You have a beginning and innovative company (start-up) with scalable activities. Scalable activities means the company can grow with the demand for the product or service. The start-up is innovative in the following situations:
  - # The product or service is new for the Netherlands;
  - # The start-up uses new technology in production, distribution and / or marketing;
  - # The start-up has a new way of working and organising.
- \* A maximum of 5 foreign employees of the start-up will receive a residence permit for essential start-up personnel. An application for the 6th employee will be refused.
- \* The employee is an expert in a special field that the start-up needs in this beginning phase.
- \* The employee has an employment contract with the start-up.
- \* The employee meets the income requirements.
- \* The employee receives a share of at least 1% in the company (employee participation). The employee receives this share as:
  - # Shares in the company;
  - # Depository receipts for shares in the company;
  - # Stock options. A stock option is the right to buy shares in the company. The price for these shares is agreed in the contract.

- \* The employee receives the shares at the latest 3 years after the contract has started.
- \* The employee is always entitled to the shares. There are no conditions for this, such as delivering certain performances.

## STEP-BY-STEP TO APPLY

The start-up entrepreneur must undertake specific activities to progress from concept to business. The Government wants to know in advance what activities will take place. The start-up entrepreneur provides a description of this in a step-by-step plan. The step-by-step plan provides:

- \* Information on the organisation. The start-up entrepreneur must play an active role in the organisation. This means he is not merely shareholder or financier. The step-by-step plan must detail the following:
  - o The structure of the organisation.
  - o The assigned roles and tasks.
  - o The legal form of the company.
  - o The personnel.
  - o The purpose of the company.
- \* A description of the proposed innovative product or service (see What makes a product or service innovative?).
- \* A description of the planning and activities associated with setting up the company.

The Netherlands Enterprise Agency (RVO) evaluates the start-up and checks compliance with the step-by-step plan.

## WHY YOU CAN CHOOSE TO IMMIGRATE TO LUXEMBOURG

One of the smallest countries in Europe, in population and also geographically, moving to Luxembourg from the USA might seem like a huge change. But don't let its size fool you – home to a thriving expat community and one of the strongest economies in Europe, it is no wonder more and more people are choosing to migrate to Luxembourg. As a Luxembourger, you will enjoy a high standard of living, low crime rate and beautiful surroundings, with over 30% of the country covered with forests.

### *Luxembourg a land of immigration*

Highly appreciated by expatriates who come there to find career opportunities and an excellent quality of life, the Grand Duchy of Luxembourg is one of the countries recognised as the safest ones in the world. Today, 50% of the population growth is due to immigration. It is mainly a young immigration. See where immigrants settle at first, when they arrive in Luxembourg.

For a long time now, Luxembourg has been a land of welcome for many immigrants who come here to find a job, among other things. It was the Italians who arrived after the Second World War until the mid-sixties. They were followed by the Portuguese, who arrived in Luxembourg in several waves, corresponding to the crises in Portugal: end of the sixties, 1975-1982, 2003-2009. Since 2014, French immigration takes over. In 2019, they represent nearly 15% of migrants.

## *Tax haven of Europe*

Luxembourg has been a tax haven of choice for corporations and the wealthy since the 1960s, when the small European country rose as a financial center for the off-shore trade of European bonds.

Luxembourg was popular with companies looking to issue debt because it lacked a withholding tax, did not require a stamp duty, and did not require bond issuers to publish a prospectus.

A favorable tax regime encourages corporations to establish special purpose entities in Luxembourg. One benefit is the lack of withholding taxes on interest payments and royalty payments, which may allow these payments to escape taxation in the jurisdiction in which these receipts were generated.

## *Become permanent resident in 5 years*

If you have lived in Luxembourg continuously for 5 years, you may apply for a Permanent Residency. Citizens of EU member states and their dependents can also apply for a Permanent Residence permit. You may apply for a PR to the Immigration Directorate of the Ministry of Foreign & European Affairs. Before you apply, you must be able to prove that you were a lawful resident of Luxembourg for at least 5 years continuously.

## *No language barrier*

The three official languages of Luxembourg are Luxembourgish, French, and German. English is widely spoken although it's always worth learning the basic French phrases as it's the main communication language.

*Oasis Resource Management offers a wide range of visa and immigration services that are commendable. So, if you are looking to Study, Work, Visit, Invest or Migrate Overseas, talk to our consultants who are trained with the World's No.1 Immigration & Visa Company.*

# Want To Move to South Korea?

## Here's How You Can!

Living in Korea offers expats an exciting life in a very advanced and modern country. South Korea is renowned as one of the world's leading producers of technical goods such as mobile phones, televisions and computers. It is also a place of both natural beauty and modernity and the major cities in South Korea are progressive whilst also embracing their past; it is possible to observe modern glass skyscrapers side by side with some of the fortresses, temples and palaces that have now become UNESCO world heritage sites.

Although South Korea is not traditionally regarded as an expat destination it is becoming increasingly popular. Many people have preconceptions that the people of South Korea have a very closed-off culture and are not welcoming to strangers. This however, is not necessarily true and although there is a language barrier, many expats overcome this and find the people to be extremely warm and friendly.

Yet, here we have dig-out best possible ways to move to Korea.

## Study Route

The Ministry of Education and Korean universities have been actively promoting 'Study in Korea' with a view toward increasing international competitiveness, international exchanges and cooperation. As of April 2016, there are roughly 104,000 international students studying in Korea, among which 63,000 students are in degree programs.

## Fully Funded Scholarships for International Students

Scholarships funded by global and regional organizations allow you to study at any country or a wide selection of countries. Due its nature, distance learning scholarships allow you to pursue international studies in your own country or wherever you may be. You can opt for scholarships which are related to your particular field and apply for the same within the given timeline. Find them here at <https://www.studyinkorea.go.kr>

## Apply for Bachelors, Masters or PhD

Another good option to move to Korea is to apply as a foreign student and join a degree program offered during the regular semesters with Korean students. Degree programs are taught either in Korean or English, After completion, a degree is awarded.

However, graduate schools are divided into general graduate schools within universities which offer academic programs and professional graduate schools which offer practical skills. Master's programs require two or more years of study and 24 academic credits in general. Doctoral programs require three or more years of study and 36 credits in general. Graduate schools also offer post-doctoral programs for those who want to continue research after acquiring a doctoral degree.

## Special Scholarships for Countries Like India

Official Korean government websites have many Global Korea Scholarship programs which are country specified and some of them are general to apply for. So, if you find any suitable special scholarship then must apply. It can be found over this link [https://www.studyinkorea.go.kr/en/sub/gks/allnew\\_invite.do](https://www.studyinkorea.go.kr/en/sub/gks/allnew_invite.do)

## Work Route

Working in Korea may be a challenge for foreigners who are unwilling to put in the hours and efforts that many Korean nationals are used to. Korea has one of the highest average work weeks and overtime hours in the world. With their rigorous work ethic, you can expect to go beyond your own standards to keep up. However, if you can be committed, the people around you will in return be committed to you.

However, they have the best salaries and pay outs so if you are interested to work in Korea then you may find these options suitable.

## India CEPA with Korea

The Comprehensive Economic partnership Agreement (CEPA) between India and the Republic of Korea came into force from 01 January 2010. Article 8.3 covers the movement of professionals from either of the countries to the other for business and employment. It has 163 Professions from which professionals can seek employment in each other's country.

Indian professionals can now seek opportunities in ROK to undertake projects/contracts. Indian professionals can access ROK services market as under:

- a) Directly by the Korean company or Indian company based in ROK or
- b) Applied for by the Indian professional to the Korean company or
- c) Indian company based in ROK on the basis of advertisements given in the media by these companies. For more info. go to

<https://www.indembassyseoul.gov.in/page/advisory-for-seeking-employment-in-korea/>

## Apply for jobs via these 3 websites

Job hunting is never easy so it's time to lay out some methods through which you can get started on with. One of the quickest ways to find many companies at once is the job listing websites which are mentioned below.

<https://www.studyinkorea.go.kr/en/main.do>

<https://contactkorea.kotra.or.kr/index.do>

<https://www.peoplenjob.com>

*Oasis Resource Management helps you in getting best suitable job opportunities across prominent countries, so that you get better chances and reason to move in another country without much hustle.*

# Thinking To Move to Poland? Now Is the Best Time Here's Why?

Poland is one of the most economically developed countries in Eastern Europe. It offers a high level of salaries, low housing prices, low taxes compared to other EU countries and a lot of people are choosing Poland for permanent residence or as the first country to “move to Europe”.

Here's why Poland is best option to immigrate to;

- \* **Polish mentality**  
Poles are very friendly people and the country welcomes foreigners from all over the world. If you behave appropriately, you will surely make friends with neighbors, work and school colleagues without any problems.
- \* **Economic growth**  
Finding a high-paying job in Poland is not as difficult as in other European countries. It is enough to speak Polish at a good level and have the necessary skills in the field you are going to work in. Knowledge of English, German and/or French will be a big advantage.

- \* **Education is top class and cheap**  
It has best education infrastructure and faculty. The schools, universities and colleges are well-equipped to facilitate national and international students.
- \* **Easy to travel all over Europe**  
Regular buses and trains run from the main cities of Poland to neighbouring countries like Germany, Slovakia, Czech Republic, Hungary, the Baltic countries. The situation is similar with air travel - there are many low-cost airlines flying to all major cities in Europe at a price of 20-50 euros per one-way ticket.
- \* **High quality infrastructure**  
Poland has a high quality of roads, social and urban infrastructure. Courtyards and houses are always well-groomed. Many large cities provide an accessible environment for cyclists, people with wheelchairs, and people with limited mobility.
- \* **Easy to get legal status**  
Compare to other EU countries it's much easier to obtain legal status in Poland. There are both standard programs for immigration through work, study, family reunification, as well as migration programs for the “Pole's Card” or for freelancers and people of creative professions.
- \* **Cheapest European country**  
Poland is renowned for its inexpensive cost and value for money, with a long-held status as a popular holiday destination for Britons. However, the low cost of living for residents can be even more attractive for potential expats.

## Study Ways to Move In To Poland

Poland is an incredible country with a diverse and rich education history. Studying in Poland will give you a high quality European degree, recognizable all around the World at a low cost! Not only you will enjoy high quality of teaching, but also have a chance to pursue your future career in EU. Polish schools compete with each other not only to provide a wide variety of high quality courses, but also offer attractive tuition fees in programs such as MBBS, engineering, international business, tourism, hospitality and other courses.

## Scholarships programs

Poland offers scholarships to students through the government, various foundations and the universities themselves. They are available to students of Polish origin including disabled

applicants as well as to international students both from within the EU itself and from countries outside the EU.

The high number of institutions that offer scholarships and their fluid availability makes the situation in the country unique. There are many free and full funded programs for international students. You can find scholarships as per your nationality on the given links below and apply for them accordingly.

Polista scholarship <https://nawa.gov.pl/en/the-polish-language/programme-for-students-of-polish-studies>

**Scholarships for Indians:**  
<https://nawa.gov.pl/en/students/foreign-students/the-ignacy-lukasiewicz-scholarship-programme>

# IRELAND HAS A NEED FOR FOREIGNERS! GET YOUR IRELAND

The Isle of Ireland, made up of the Republic of Ireland and Northern Ireland, is a popular destination with travellers and immigrants. Full of iconic sights, such as the Cliffs of Moher, there are many reasons why it is an ideal holiday destination. The Emerald Isle is fantastic for road trips, for hiking, discovering castles, eating seafood and sipping on whiskey.

Also, Ireland is the leading force in Big Data and is home to Global Technology Hub of multinational brands such as IBM, Deutsch Bank, Pramerica, and United Health Group. Furthermore, Dublin is Europe's leading hub of innovative games companies like Big Fish, EA, Havok, DemonWare, PopCap, Zynga, and Jolt.

Moreover, Google, Facebook, LinkedIn, Microsoft, and Apple have made Ireland their home in Europe. Across a range of services and industries, Ireland is a hub for tech giants like Intel, HP, IBM as well as PayPal, eBay, Amazon and Twitter. It is also the world's second largest software exporter. The service sector dominates the job market with several booming industries including the IT and financial sector - in fact 50% of the world's major financial services are based in Ireland including Deloitte, KPMG, Accenture and PWC.

## Major Pathways to Move to Ireland

### Study

Ireland has a highly skilled, educated, and multicultural population - one of the youngest in Europe. It also has one of the best education systems in the world, one that more than meets the needs of the economy. With its

well-connected geographical location and reputation for highly skilled graduates, an impressive number of multinational companies have European headquarters or manufacturing facilities in the country, providing a wealth of opportunities. There are multiple Internships and jobs opportunities to count on. Also, Ireland gives 2 years to students to look for a job.

### Work

The country is the second largest exporter of med-tech products in Europe and hosts the world's leading pharmaceutical corporations including Pfizer, GE Healthcare, P&G, Novartis and Boston Scientific. The city of Galway is considered the MedTech and biomedical centre of Ireland, while Cork leads the way for the pharmaceuticals and food industry, and Dublin is the technological and financial core of Ireland. Some best jobs available are from data analysts, software developers, IT support specialists, programmers), Natural and Social Sciences (medical laboratory, physical, biological and chemical scientists), Business and Finance (accountants, business intelligence analysts, financial advisers, tax, risk and compliance professionals), Engineering (biomedical, chemical, civil, electrical and energy engineers), Healthcare (doctors, nurses, pharmacists, opticians, radiologists), and Logistics.

Oasis Resource Management helps you in getting best suitable job opportunities across prominent countries, so that you get better chances and reason to move in another country without much hustle. We have best experts giving study visa guidance and work visas assistance to our clients across the nation.

# NOW APPLY FOR AUSTRALIA PR WITH POINT BASED SYSTEM

Australia lives up to its stereotype – Sun, fun, beaches, and friendly people everywhere. But it is so much more than that. With a rich history dating back 60,000 years, Australia offers a diverse mix of cultures from all over the world. Australia is the perfect country for those who love to enjoy life but at the same time, want to live in an efficient and cutting-edge country. Known for its easy-going lifestyle, Australian's find the perfect balance between efficient productive work-lives and fun-filled social lives with a strong focus on well-being!

## Benefits Of An Australia PR Visa

- \* A PR visa holder can enjoy complete freedom to follow the study course he or she prefers.
- \* As a PR visa holder, one can live and work in Australia for an indefinite period with the facility to travel unlimited within and outside Australia.
- \* A PR visa holder can enjoy the privileges of Australian Government's health insurance.
- \* A PR visa holder is eligible to apply for the Australian citizenship once the necessary criteria are met.

- \* A PR visa holder has all the rights to work for any employment under any employer.
- \* A PR visa holder also has the freedom to travel to New Zealand or apply for their visa.

## Australian Points Based System For PR

The Australia Point System assists candidates in calculating points related to the following subclass of Australian immigration visa: 189, 190 and 491. The minimum eligibility criteria for all three also being explained below. For each visa, the candidate needs to score a minimum 65 points. The higher the points, the more chance for the applicant to receive an invitation to apply and permanently live, work and study across Australia.

The Australian Points Calculator helps determine the eligibility of the candidate for skilled migration visa through calculating points across factors, including candidates-

- Age
- English Language Ability
- Skilled Employment
- Educational Qualifications
- Australian Study Requirements
- Credentialed Community Language Qualifications
- Study in Regional Australia Partner Skill Qualifications
- Professional Year in Australia
- Nomination by State or Territory Government (visa subclass 190 only)
- Nomination by State or Territory Government or Sponsorship by an Eligible Family Member (visa subclass 491 only) **65 points to Australia are needed to be successfully Immigration.**

### 1) Skilled Independent Visa (Subclass 189):

A non-sponsored visa which does not require a nominator or a sponsor; should have an invitation to apply; should be aged under 45; should check whether the occupation is listed in the *Medium and Long-term Strategic Skills List (MLTSSL)*.

### 2) Skilled Nominated Visa (Subclass 190):

Nomination required by a State or Territory Government. Also, occupation needs to be listed under the *Consolidated Sponsored Occupations List (CSOL)*.

### 3) Skilled Regional (Provisional) Visa (Subclass 491):

In order to apply under this visa, one should possess sponsorship from a suitable relative living in some designated area or by a state or territory government. The point criterion is assessed at the time of invitation to apply. The points tables given below would help you calculate the maximum point that can be received under respective categories.

*Oasis resource management is the best Immigration Consultant that will help you to resolve all of your Canadian/Australian and other immigration-related queries. Let us plan your immigration option for Canada/Australia and many other countries to achieve your dream.*

# 5 MOST SORTED PATHWAYS TO MOVE TO CANADA

**Canada** - A name that we widely hear from people across the globe. It's not just another country but has become an emotion for many people who dream to settle and live aboard. Despite Canada's great size, it is one of the world's most sparsely populated countries. This fact is coupled with the grandeur of its landscape which has been central to the sense of Canadian national identity. Canada, a flourishing, growing, and marking country which leaves no space for the opportunities to be distributed and equated

among the entire world!

Migration takes many forms internationally especially in Canada and Australia who rely largely on migration to fill gaps in their labour markets and meet a number of demographic developments, especially in Canada, in part to offset low fertility rates, an aging population, a growing elderly dependency ratio, a shrinking labour force and high out-migration rates.

## **Express Entry System**

Express Entry allows Immigration, Refugees and Citizenship Canada (IRCC) to invite eligible candidates to make an application for permanent residence. These candidates have all made a formal 'Expression of Interest' to settle in Canada by creating an online Express Entry profile. Eligible candidates have their profiles accepted to the Express Entry pool where they are given a score and ranked under the Comprehensive Ranking System

(CRS) based on the personal information they provided. IRCC then invites candidates to apply during its Express Entry draws from the pool.

## **Provincial Nomination**

The Provincial Nominee Program (PNP) is the second leading way to immigrate to Canada as a skilled worker after Express Entry. Nearly every province and territory operates the PNP to welcome skilled workers from all over the world to help strengthen their economies. Each PNP has at least one immigration stream that is aligned with the federal Express Entry immigration selection system. Provincial nominations issued under these Express Entry-aligned streams are known as 'enhanced nominations'.

The benefits of enhanced PNP streams are that they award Express Entry candidates an additional 600 Comprehensive Ranking System (CRS) points, which essentially guarantee they will receive a permanent residence invitation under Express Entry. Another major benefit is they can have their permanent residence application processed by the federal government quicker, typically within six months.

## **Study Permit & Work Permit**

A work permit under the PGWP is usually issued for the length of the study program. The maximum length of the PGWP in Canada is of three years. It means if your post-graduate course's duration is two years, you get a three-year PGWP visa. A post-graduation work permit cannot be valid for longer than the student's study program. The course duration must be a minimum of eight months to get post graduate work permit in Canada. The Post-Graduation Work Permit Program (PGWPP) allows international students who completed their higher education in Canada from designated learning institutions (DLIs) to obtain an open work permit and remain and work in Canada. The post-graduation work permit in Canada allows students to stay there and gain work experience after completing their graduation.

## **Start-up pathway**

If you are an entrepreneur with an innovative business idea, you may be eligible to immigrate to Canada through the start-up visa program. Canada is looking for talented entrepreneurs that are interested in starting businesses that will stimulate the Canadian economy while creating employment opportunities for its residents. Canada's start-up visa program gives entrepreneurs the opportunity to immigrate to Canada in order to establish a new business. Immigrant entrepreneurs must demonstrate that their business is innovative, will create new jobs for Canadians, and can compete on a global scale.

## **Agri-Food Pilot**

The Agri-Food Pilot helps address the labour needs of the Canadian agri-food sector. The pilot provides a pathway to permanent residence for experienced, non-seasonal workers in specific industries and occupations. It will run until May 2023.

To be eligible, you must:-

- \* have eligible work experience
- \* have an eligible job offer
- \* meet or pass the language requirements
- \* meet or pass the educational requirements
- \* prove you have enough money to settle in Canada (if applicable)
- \* have maintained your temporary resident status (if already in Canada)

There are number of ways to be in Canada but here are some of the sorted methods that Oasis resource management gives you as a suggestion. And if you are still confused or stuck at some point in your immigration process contact our experts to get it done!

## Know How to Sponsor Your Own Work Permit in Asia

If you wish to live nearby your home country India and yet want to advance your career by immigrating to a better place then here, we taken Singapore and Hong Kong in consideration to make a compare and contrast folio between these two ever-growing countries where you can opt to immigrate.

Singapore is one of the best countries to live, work and live with your family. Singapore has always topped the list of destinations for international migrants for those wishing to migrate to other parts of the world to start a new chapter. Singapore has always maintained an open-door policy towards migrants and continues to do so. The number of immigrants in this country continues to rise every year. In fact, immigrants account for a major percentage of the population here.

Reasons to migrate to Singapore are a strong economy, low cost of living and high quality of life. There are various reasons to migrate to Singapore, some migrate for work, and others migrate to reunite with their

families. Some of them move here on long-term visit visas while others seek permanent residency.

However, Singapore has restricted and strict regulations for permits to foreigners. But IT and tech workers in country are always in demand for hiring and government gives preference to these profile candidates more.

### Ways To Move To Singapore

#### For Professionals (PASS Category):

- \* **Employment Pass:** For foreign professionals, managers and executives. Candidates need to earn at least \$3,600 a month and have acceptable qualifications
- \* **Personalized Employment Pass:** For high-earning existing Employment Pass holders or overseas foreign professionals.

#### For Skilled and Semi – Skilled Workers (Pass Category):

- \* **S Pass:** For mid-level skilled staff: Candidates need to earn at least \$2,200 a month and meet the assessment criteria.
- \* **Work Permit for foreign worker:** For semi-skilled foreign workers in the construction, manufacturing, marine shipyard, process or services sector
- \* **Work Permit for foreign domestic worker:** For foreign domestic workers (FDWs) to work in Singapore.

## HONG KONG

Hong Kong is a spectacular immigration destination for the Overseas Immigrants. The candidates with accurate qualification and work- experience may apply for the Hong Kong visa program on the basis of their occupation. Hong Kong- the former British Empire Colony is home to the Chinese, European and South Asian countries. Immigration to Hong Kong is not that difficult as their Immigration Policies are crafted in the unique way that attracts thousands of Immigrants. You can immigrate there without any advance offer of local employment.

Hong Kong is a well-established Asian country and known for its versatile factors. From spectacular history and independence to a multi-cultural community and accessible transportation, Hong Kong is occupied with numerous amenities that make it the best place to live.

Check out the pull factors that make Hong Kong, the best place for Immigrants:

- \* Hong Kong has the top-most Human development index ranking and ranks 7th worldwide for the highest life-expectancy in the world.
- \* Hong Kong has the highest number of skyscrapers with third-most high-rise buildings in the world.
- \* The key factors like the International financial market, low taxation, and least Government interference add toppings in the economy of Hong Kong.
- \* The tourism sector contributes the major part in the economy of Hong Kong, by accounting for 5% of its GDP.
- \* Hong Kong is considered as the pathway for the foreign direct investment into China.

## Point Based Immigration System

The Hong Kong Quality Migrant Admission Scheme (QMAS) is a points-based scheme where you are given points based on your age, qualification, work experience, language proficiency and dependents. With this visa you can enter Hong Kong without holding a job offer and settle permanently with your dependents.

The Hong Kong QMAS Visa is a work visa for professionals who wish to pursue a career in Hong Kong. Under the QMAS category, you are expected to be under the highly-skilled professionals list to proceed with the job search. QMAS primarily works on points-based selection patterns. Individuals and families who want to live in Hong must score eligible points and then apply for the visa.

### What is the skilled professional's list of 2022 in Hong Kong?

As per the ManPower Group's Statistics, here's a list of 2022's demand of professionals in Hong Kong:

- \* Sales & Marketing
- \* IT
- \* Engineering
- \* Account & Finance
- \* Driving & Logistics
- \* Management/ Executive
- \* Construction

### Education Pathway

Studying in Hong Kong is the thoughtful though any aspiring student can think of. Whether you want to study at graduate level or do research, Hong Kong welcomes every student under study visa. The Hong Kong Study visa allows you to live and study till the date of visa approval. To apply for the Study visa, the students need to go through the proper criteria of eligibility.

- \* Scholarships
- \* Bursaries/ Financial aid
- \* Vocational internship-based courses.

# If You're Dreaming To Live In UK, Apply Via New Point-Based Immigration System

EU unskilled migrants will be ineligible to get into the UK, after the introduction of a new points-based immigration system last Wednesday, in a bid of the government to take over the control of the borders and to restore the trust of the citizens of UK.

From the new points-based immigrant system, according to the UK Home Secretary Priti Patel, will take profit only the applicants who will gain enough points from specific skills, qualifications, salaries or professions.

The Home Secretary Priti Patel said that the new decision that will come to force from 1 January 2021, will bring the migration numbers down. European Union (EU) citizens not already living in the UK have been treated the same way as those from the rest of the world.

It means that anyone wants to live and work in the UK has to apply via a points-based system. The points-based visa system is the main UK immigration route for migrants from outside the European Economic Area (EEA) to come to the United Kingdom, to work, study, invest or train, which separates applicants into five 'tiers'.

The system is designed to ensure that no one who might jeopardize the health of other persons in the UK is admitted. Furthermore, those unable to support themselves or their dependants in the UK for medical reasons, and those that require major medical treatment (unless explicitly granted), will not be granted with any of the points-based system visas.

# The Eligibility For Point Based System

In order to be eligible for a visa in any of the five tiers you must pass a points-based assessment. Each tier has different conditions, entitlements, and entry requirements for people wishing to live and work in the UK and each tier will necessitate you to allocate a sufficient number of points to gain entry clearance or leave to remain in the United Kingdom. Points are allocated according to traits, such as age, qualifications, earnings, language and funds, with a different number of points needed for each of the five tiers.

The ability to fund your initial stay in the UK and your ability to speak English will play a very significant role in most cases.

Factors on which the candidate will be judged:

## Age

Depending on the age, one can allocate 5 to 20 points. The system privileges young applicants assessing them with more points than those older.

## English Language

Each applicant must obtain 10 points for English language ability. Nationals of countries where English is an official language automatically obtain ten points, while nationals of other countries must first take a test to prove their English ability.

## Qualifications

Some tiers assess education level from 30 to 50 points and others from 5 to 15 points.

## Earnings/Maintenance

Depending on the tier earnings or maintenance, candidates financial means are assessed with 15 to 45 points of 5 to 20 points.

## UK experience

Some of the tiers may evaluate the experience that one has had in the United Kingdom with 5 points.

## Certificate of Sponsorship

CoS is evaluated with **30 to 50 points**.

## An Example Of Eligible Scenario

- \* To qualify for a visa, migrant workers who want to move to the UK will have to qualify for 70 points.
- \* Having a job offer from an approved employer for a skilled job and being able to speak English will give 50 points.
- \* The applicant can achieve the remaining 20 points if they are due to be paid at least £25,600 a year.
- \* They can also gain extra points for having better qualifications (10 points for a relevant PhD, or 20 points for a PhD in science, technology, engineering or maths) or an offer of a job in which the UK has a shortage (20 points), even if it doesn't pay as much money.
- \* Certain jobs in health or education still merit 20 points even if the salary is less than £25,600. The applicant must be paid at least £20,480, and in line with set amounts for particular jobs in the UK's four nations.

## How Much Will It Cost?

The application fee will depend on how many years the job seeker plans to work in the UK, and whether their job is on a list of skills that the UK has shortages of - for instance, vets and web designers.

If their skills are not on that list then the standard fee will be between £610 and £1,408 per person.

Jobseekers will also have to pay a health surcharge of £624 per person per year when they apply - that money is refunded if they don't get a visa.

And they will need to show that they have the means to support themselves in the UK, which usually involves having a total of at least £1,270 available.

Oasis Resource Management has all-in-one solution for any kind of visas assistance in the United kingdom. Our team comprises of field experts who can help you with all UK visa types maintaining their success rate and excellence parallelly. So, get your bags ready to fly to UK for work.

# Thinking Of Malta? Work & Live in This Beautiful Country

Malta, or the Republic of Malta, is located on the southern tip of Europe. It is located just below Sicily, Italy in the heart of the Mediterranean Sea and conveniently just a few hours flight from most major European cities. All those who move to Malta, the smallest EU state, fall in love with its natural beauty, architectural gems and the Mediterranean joie de vivre that permeates life on the island. Many are also attracted by the various successful industries that are flourishing in Malta such as the gaming industry and the financial services. Other star attractions include the plethora of leisure activities namely diving, cultural events and night life.

## **Work in MALTA**

Work permits in Malta are employer-specific (although there can be exceptions), occupation-

specific, and location-specific, and are normally valid for one year.

A worker from a non-EU country must first obtain a visa to enter Malta and then apply for the residence/work permit once in Malta.

## ***EU/EEA Nationals***

If you are an EU National that would like to work in Malta then it's not a big deal for you to move to the country. As it is an easy process to follow to immigrate to Malta for work if you have a valid job.

## ***Non-EU National***

Employment licenses must be applied for by the employer and not by the jobseeker.

Third country nationals who are eligible for the Single

Permit Application still require an employment license, which process is conducted by means of internal arrangements between ETC and the Department for Citizenship and Expatriate Affairs, some of the documentation indicated in the contents below still applies in their respect.

## ***Documentation Required***

In the case of an application for a new employment license for a third country national, the process is as follows. The employer, unless it is a single permit application must fill in an application form and submit it to the Employment Licenses Unit by hand or by mail.

The following documentation needs to be provided at application stage:

- \* Application form;
- \* Curriculum vitae;
- \* Position description;
- \* References/testimonials;
- \* One passport photo;
- \* Copy of travel document;
- \* Copy of valid visa (if third country national is in Malta);
- \* Copy of qualification certificates and accreditation/recognition;
- \* Covering letter by employer indicating site of work;
- \* The fee;
- \* Evidence of search for EEA/Swiss/Maltese nationals through a detailed vacancy report.

## ***Types Of Work Visas In Malta***

Malta offers a variety of visas for foreign nationals, including tourist visas, business visas, and visas for medical purposes. Foreign nationals who intend to travel to Malta to work have a few options when it comes to visas:

- **Short-Stay Visa, or C Visa:** The short-stay visa is a type of Schengen visa, which means it allows foreign nationals to enter multiple countries within the Schengen area. This visa is available in three forms to accommodate single entries, double entries, and multiple entries. The C visa allows the holder to remain in Malta for up to three months regardless of how many entries are allowed.
- **National Long-Stay Visa, or D Visa:** The D visa allows foreign nationals to stay in Malta for more than three months. This is the visa foreign employees will need to live and work in Malta for an extended period of time. Individuals who are traveling to Malta to study will need a D visa as well.

If you are considering relocating to Malta, Oasis Resource Management offer a variety of services for business and individuals from residency programmes, study visas, work permits, and so on. We pride ourselves on client retention and quality service, offering bespoke immigration services.

# Now immigrate to world's most happiest country: **Finland**

The marvel of the Northern Lights, a large number of sports activities and a high quality of life are just some of the reasons people might be thinking of moving to Finland. In this article, we highlight some reasons why Finland is awesome and why you should definitely consider moving here either to study or to work.

As repeatedly dubbed the happiest nation on the planet, with world-beating living standards, Finland should be deluged by people wanting to relocate, but in fact it faces an acute workforce shortage.

"It's now widely acknowledged that we need a spectacular number of people to come to the country. Workers are needed "to help cover the cost of the greying generation", the recruiter stated.

While many Western countries are battling weak population growth, few are feeling the effects as sharply as Finland.

With 39.2 over-65s per 100 working-age people, it is second only to Japan in the extent of its ageing population, according to the United Nations, which forecasts that by 2030 the "old-age dependency ratio" will rise to 47.5.

The government has warned that the nation of 5.5 million needs to practically double immigration levels to 20,000 to 30,000 a year to maintain public services and plug a looming pensions deficit.

Finland might seem like an attractive destination on paper, scoring high in international comparisons for quality of life, freedom and gender equality, with little corruption, crime and pollution.

But anti-immigrant sentiment and a reluctance to employ outsiders and the opposition far-right Finns Party regularly draws substantial support during elections.

## Reasons To Consider Finland

### *Happiest Country in the World*

Finland consistently ranks as one of the happiest countries in the world. The latest world happiness report ranks Finland as the number one happiest country in the world closely followed by Denmark, Switzerland, Iceland, and Norway.

### *A High Quality of Life*

The social progress index of 2021 ranks Finland as the second country in the world when it comes to quality of life. According to the index, Finland scores high in almost every category from basic human needs and well-being to personal opportunities and freedom.

### *Innovative Country in the World*

The next reason to move to Finland is the large amount of innovation that is happening in different institutions and companies both in the private and the public sectors. So, Finland has always been a country of technology and engineers and most of the export consists of technological products.

### *Cleanest Country in the World*

Not only do Finns have the cleanest air in the world making Finland a haven for people who come from countries or cities where the air quality has been compromised by pollution, but Finns also like keep their environment and cities clean as well. When you walk especially in larger Finnish cities, it is very rare to see trash lying around.

### *Finland's Climate and Nature*

When people think about Finland and its nature, they often think of pristine snow-covered hills and trees in Lapland, but in reality Finland has so much more to offer. For example, Finland is called the land of the thousand lakes but funny enough this moniker is an understatement because Finland has in total over 180 000 lakes across the country.

Oasis resource management is the best Immigration Consultant that will help you to resolve all of your immigration-related queries. You may also fill our Technical Assessment Form labelled in the website. One of the experts will soon contact you to discuss the query. Our experts having experience of more than 10+ years. Let us plan your immigration option different countries to achieve your dream.

# Work Permit Limits in Croatia! Everything About New Immigration Laws

Croatia is currently in need of a lot of workers. There are lots of industries, like construction and tourism, that simply do not have enough people to fill all the open positions. As a result, Croatian companies are looking abroad to fill these roles. The company hires a foreigner and the government grants a work permit.

This shortage of labor is partly because young Croatians are moving abroad to other EU countries and partly because Croatians don't want to do these kinds of jobs. If you are a citizen of a non-EU country, you may apply for a work permit in Croatia if you meet the right conditions. If you are a citizen from an EU/EEA member state, then this post is better suited for your situation.

## *Work Permit Quotas And The Labor Market Test*

Starting January 1, 2021, work quotas are abolished. This means that there is no limit to the number of foreign workers that can be hired within Croatia. This is definitely progress, but there is still one hoop that a company must jump through before they can hire a foreigner. This hoop is called the "labor market test".

If a Croatian employer wishes to hire a non-EU national, then they must first request permission from the employment agency called HZZ before they can request a work and residence permit for a foreign worker. HZZ will perform a labor market test to determine if they will grant the company permission to hire the foreigner.

## **How To Get A Job In Croatia**

Your very first step, BEFORE you can apply for a work permit, is to get a job in Croatia. You cannot apply for a work permit before you have a job. Finding a job can drain a lot of energy and time. If you don't know how to find a job in Croatia, you may spend too much energy on some actions which won't bring your desired results. It is easier to keep up to date on open jobs if you know where to look. There are many online resources where you can look for available job positions in Croatia.

Croatia is to leverage government resources as well to find jobs. Hrvatskizavod za zapošljavanje (Croatian Employment Service) also called HZZ, burzarada, or burza is a state institution that implements employment programs on the basis of public authority.

Here are some of the biggest job search portals in Croatia:

- \* Adorio
- \* Bika
- \* Danas radim
- \* Freelance.hr
- \* Jooble HR
- \* MojPosao
- \* Njuškalo
- \* Nova karijera
- \* Oglasnik
- \* PickJobs
- \* Posao

If you still find it difficult to find a job in Croatia then Oasis Resource Management helps you in getting best suitable job opportunities across prominent countries, so that you get better chances and reason to move in another country without much hustle. We have best experts giving study visa guidance and work visas assistance to our clients across the nation.

# Take All The Control To Sponsor Yourself To Dubai

The 'United Arab Emirates' or UAE as it's more commonly known lies at the southeast end of the Arabian Peninsula on the Persian Gulf, as a country, the UAE is made up of 7 states; these are Ajman, Fujairah, Ras al-haimah, Sharjah, Umm al-Quwain, and the most recognisable being Dubai and it's capital city Abu Dhabi.

A new life in Dubai could well be one of the most exciting experiences you'll ever enjoy. However, living in Dubai like any new country can be daunting, especially if you lack practical knowledge of how things are done locally.

## Why Consider Moving To UAE?

- \* It has a stable and well-developed economy. Prices for products and services remain the same because the local currency rate has not changed for several years. Foreign investors in the United Arab Emirates are attracted by a friendly taxation system.
- \* The local tax policy is probably the most important advantage for those who plan to run a business in the UAE. Only foreign banks and companies that extract oil, natural gas, and other minerals are obliged to pay taxes. If your company works in any other spheres, then you do not have to pay taxes.
- \* Great opportunities for foreigners. About

10,000,000 people live in the United Arab Emirates and 70% of them are nationals of other countries. The average salary in the UAE is about \$4,000-7,000 per month. In addition, an employee is provided with profitable medical insurance and rental housing from the company. Moreover, many companies provide employees with cars, trips back home and many other bonuses.

- \* Healthcare. The UAE invests plenty of money in the healthcare sector which means that doctors use the latest technologies. Because of this, medical care in the country is one of the best in the world and free for

locals. Expats working in the UAE receive annual healthcare insurance, the cost of which depends on the type of coverage offered.

## Permanent Stay Visa/Golden Visa

In 2019, the UAE implemented a new system for long-term residence visas. The new system enables foreigners to live, work and study in the UAE without the need of a national sponsor and with 100 per cent ownership of their business on the UAE's mainland. These visas will be issued for 5 or 10 years and will be renewed automatically.

This visa allows foreign nationals to live, work and study in the UAE without the need for employer sponsorship. These visa types have a validity period of five to 10 years and can be renewed automatically. The Golden Visa can be granted for the following;

- \* Inventors
- \* Entrepreneurs
- \* Specialized talents and researchers in various fields of science and knowledge
- \* Highly talented students with promising scientific capacities.

## ***UAE FREELANCING VISA***

The freelance permit in Dubai is a licence issued under the TECOM Group that allows you to work as an independent contractor and is renewable each year. The freelancer permit is ideal for those who are on their spouse's or parent's visa and only require a licence to operate as a freelancer.

However, for those who aren't sponsored by their parents or spouse, they can also apply for a freelance visa in Dubai, which is a residency permit that allows the individual to live and work in the emirate and is renewable every three years.

### ***Who Should Apply For The Freelance Permit***

There are various sectors for which you can obtain freelancer eligibility in Dubai:

- \* Education
- \* Media
- \* Tech

If you are pursuing professions such as acting, screenwriting, journalism, advertising, training, education advisor, customer service or web development, you are eligible to apply for the freelance visa in Dubai. Please note that the Dubai Internet City will issue your freelance permit if you are working in the Tech sector, Dubai Media City for the media sector and Dubai Knowledge Park for the education sector.

### ***Benefits Of Having A Freelance Visa In Dubai***

There are several benefits of having a freelance permit and visa in Dubai. Firstly, it allows you the flexibility to work for multiple companies. If you plan to work in any of the sectors mentioned above and don't want a 9-to-5 job, becoming a freelancer in Dubai could be your best career move.

Having a freelance visa and permit in Dubai also allows you to work as an independent contractor for companies across the UAE and allows you access to the free zone's business centre, as well.

With the freelance visa in Dubai, you can also sponsor family members to come and live with you in an apartment or villa for rent in Dubai. However, bear in mind that you cannot sponsor employees with your freelance permit and visa.

## ***EMPLOYMENT VISA***

Foreign nationals who want to live in the UAE long-term must have a Residence Visa. In addition, if you want to be allowed to work, you must also have a work permit for the UAE.

However, before everything, you need an employer willing to hire you and start the necessary procedure to procure your employment visa and work permit for the UAE.

The employment visa for Dubai, or any other emirate in the UAE, comes with specific rules ensuring the rights of workers are not violated.

## ***UAE Employment Visa Rules***

To be allowed to work in the UAE, you as well as the company hiring you must fulfill the following conditions:

- \* You must be at least 18 years old
- \* The license of the company hiring you has to be valid
- \* The company must not have any violations
- \* The work you do must correspond to the nature of the company hiring you

# ITALY HAS LAUNCHED A NEW PROGRAM FOR INTERNATIONAL STUDENTS

If you want to be in Italy, the most pizariious and iconic place on earth then this is one of the greatest and easiest option to choose. **Step 4:** Submit the application.

So, if you desire to live and settle in this beautiful place Italy, Oasis Resource Management is your solution. We got you covered with numerous immigration opportunities and ways! Contact and speak to our expert consultants and get your queries resolved and dreams true!

# The Only **VISA-FREE** Place On The Planet

Snow-capped mountains, half a year mornings and nights that stretch for another 6 months, this is the Norwegian archipelago of Svalbard. This visa-free archipelago is home to people from more than 50 nationalities and we are eager to set foot in this mystical and beautiful land. It truly is a treasure as you can live visa-free here.

## You Can Live In Svalbard As Long As You Have A Home And A Job

Located 800km north of mainland Norway in the middle of the Arctic Ocean, Svalbard is full of superlatives: the world's northernmost year-round settlement, home to the world's northernmost university, church and brewery and one of the rarest place in the world anyone can live provided they have a home and a job. Longyearbyen is in fact, home to immigrants from more than 50 countries.

## You Can Live Visa-Free In Svalbard

When it comes to mainland Norway, the Immigration Act regulates foreigners' access to a residence in the country. And even though Svalbard is part of Norway, the Immigration Act doesn't apply to the archipelago. So foreigners can live visa-free in Svalbard. You don't need a visa, work or residence permits from the Norwegian authorities to travel to and settle in this gorgeous destination of Svalbard.

When it comes to the cost of living in Svalbard, it's approximately the same as in the rest of Norway. Food and accommodation cost amounts to around NOK 10 000 (INR 74,925) per month. And if you're planning to settle here, then let's tell you that most people speak English, apart from other languages like Norwegian, Barentsburg Russian and Ukrainian. You can probably find a job in the services sector which includes agriculture, chemicals, fishing, food processing, mining and other industries.

## Settle And Work in Germany with Work Permit

Today more than 9 millions foreigners live in Germany. This country is the second most popular destination in the world, after the United States. Every year thousands of migrants come to Germany for a better life. People with different nationalities, religions, educations, professions made Germany the cultural mosaic. Why this country is so popular migration destination?

Germany is well known for its comprehensive welfare system. The principle of the welfare system is enshrined in the law. In this way Germany commits to protect in addition to their freedom, the natural bases of life of its citizens. In case, a person can not take care of himself, a state will do it. In case, a person can take care by himself but it is not enough to live with dignity, the state will help as well.

In Germany those who do not work can claim support. Anyone who is unemployed is entitled to unemployment benefit: 60 % of last net income for those who do not have children and 67 % for those who do. Economic migrants often avail allowance system, because benefits in this country are paid even for those who have never worked in Germany. They just need to register as "unemployed".

### *What is a job seeker visa?*

The job seeker visa for Germany is a Long-Term Residency Permit, which allows you to stay in the country for six months and look for a job. If at the end of the six months you have found a place of employment, you will be given a German work visa or a German work permit and you will be allowed to work and live there. Please note that having a job seeker visa does not allow you to start working immediately in Germany. It only means that you can visit the country and look for a job during your stay.

In order to obtain a job seeker visa for Germany, you need the following:

1. Be eligible to apply
2. Compile all the necessary documents
3. Fill out an application form and book your visa appointment

### **Eligibility of applicants**

There are several criteria that you need to fulfil to be eligible to apply for the Germany job seeker visa:

- Hold a Bachelor/Master's Degree from a German university or an equivalent foreign degree
- Have a minimum of 5 years of experience in your related field of study
- Show proof that you have sufficient funds to cover your stay during the time you are in Germany
- Have travel or medical insurance for your entire stay in Germany or until you get your Work Permit

If you checked all of the criteria, then you're one step closer to getting your visa.

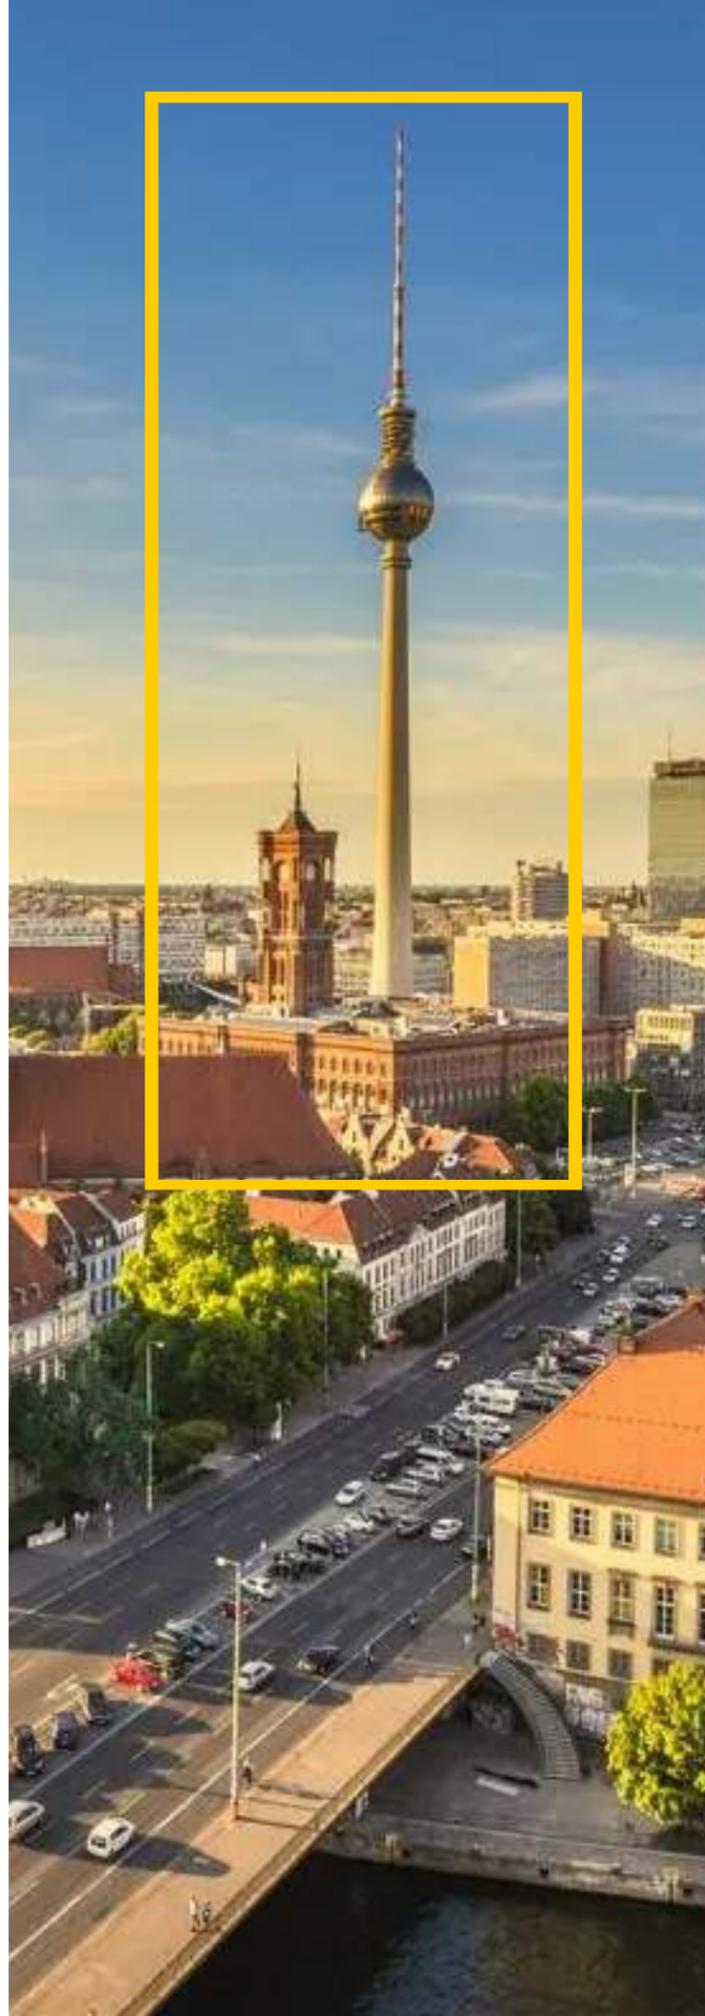

## Documents for Application

The next step is to prepare your set of documents which will be attached to your application. The documents ensure that your application is not immediately rejected on grounds of not fulfilling the requirements, so make sure you have all of them.

### Checklist of documents you need to obtain a Germany job seeker visa:

- \* A valid passport (issued in the past 10 years and valid for at least 12 months after your scheduled return)
- \* A copy of your passport's data page
- \* 3 passport pictures based on biometric specifications
- \* A cover letter where you explain the objective of your visit, how you plan to find employment, and your alternative career plans if you cannot find a job
- \* Diploma of your degree (or any other proof of academic qualification from a German or non-German university) as well as any certificates of previous work experience
- \* Your detailed Curriculum Vitae (CV)
- \* Proof of accommodation in Germany (where you will be staying during your visit)
- \* Proof of financial means to cover the costs for the time of your stay in Germany by showing one of the following documents:
  - \* Verpflichtungserklärung (formal obligation letter) by a sponsor living in Germany
  - \* Bank account statement, or
  - \* Blocked bank account.
- \* Proof of personal status in your home country, such as birth certificate, marriage certificate, and others (translated in English)
- \* Proof of your health insurance

## HERE ARE THE FIVE COUNTRIES TO STUDY FOR FREE IN ABROAD

Studying and living in a foreign country is everyone's dream. The experience of living in an unknown place is one that we all crave for. A new culture, new people, new places, new food - who wouldn't like to have that kind of an experience, right? Studying abroad offers you all these experiences and much more. But the massive tuition fee and other living expenses are always the deal breakers.

Well, not anymore! While our understanding of education in a foreign land is restricted to the States, UK and popular European nations, we tend to ignore the various other options available to us. As it so happens, there are certain countries that offer education free of cost or with nominal tuition fee to residents and international students alike. And we made a list of them for you. You're one step closer to realising your dream of living abroad when you are with Oasis Resource Management.

### **GERMANY**

When it comes to excellent higher education at minimal or no cost, Germany tops the list because of its Liberal immigration policy. The public universities in Germany do not charge any tuition fee at all, however nominal university administration fee of €150-250 (that's 11,500-19,000 approx.) is charged, which doesn't pinch as that's exactly what we pay as annual fee in a DU college.

### **ITALY**

Like other European countries, Italy too offers free university education to EU citizens only. But it too offers low cost education to students outside EU, and offers reasonable cost of living. They even pay 500-700 euros for living expenses of the students. Government funded education covers food, living, and transportation.

#### **Government funds entire education**

### **FRANCE**

Higher education in France is mostly free, except at some public universities. The Government covers 2/3<sup>rd</sup> of education costs and also pays 3000 euros to enrolled students. They offer more than 273+ scholarship categories and has a Work and study programs. Add to that the perks of living in the country of Eiffel Tower and Paris! Tempting, isn't it?

### **FINLAND**

Currently, Finland does not charge any tuition fee for any level of education or any nationality. But come 2017, and it will start charging tuition fee from non EU/EEA students for English-taught Bachelor's and Master's programmes.

### **NORWAY**

Graduate, post-graduate and doctorate level programs in Norway are absolutely free of cost, regardless of your nationality. But they do have one requirement - you should be proficient in Norwegian, as most undergraduate courses are taught in this language. Mind it, they do ask for proof of proficiency in the language. So in case you plan to apply, better start learning right away!

# YOUR PROSPECTS TO LIVE, WORK OR STUDY IN AUSTRIA

## Study in Austria

If you wander around the streets of any Austrian city, you'll feel like you've gone back in time as you start to experience that fairy tale vibe. Austria has a unique charm making every visitor marvel at its beauty. As a student in Austria, you won't just enjoy the country's numerous beauties; you'll also study at one of the universities offering excellent academic options.

You can discover Austria's incredible culture and history, if once you attend the diverse social events held in any of its major cities. From art exhibitions to concerts, theatre performances, and the famous balls – you can find pretty much anything. Austria is also the perfect destination for outdoor sports fanatics. The Austrian Alps are the perfect setting for skiing, hiking and climbing.

## Why study in Austria

### 1. It's super affordable and in some cases free

Public universities in Austria are free for all EU and EEA citizens; international students only pay around 1,500 EUR per academic year. At universities of applied sciences (UAS), tuition rates vary between 365 and 7,500 EUR depending on the study programme and your nationality.

### 2. You'll live in a safe and secure environment

Austria is one of the safest countries in the world, enjoying a low crime rate and a high standard of living and social security. In a world full of political and military tensions, armed conflicts, and violent protests, you won't have many worries while living in Austria.

### 3. High quality of life

If you choose Austria, you'll have the opportunity to study and live in Vienna, which has been ranked as the city with the highest quality of life for 10 years in a

row! Everything from transport to accommodation, from student services to administrative support, from salaries to job outlook is excellent.

### 4. Endless study opportunities

Austria offers six types of higher education institutions: 22 public universities, including 6 Universities of the Arts, 3 Medical Universities and 3 Technical Universities, 16 private universities, 21 universities of Applied Sciences and 14 University Colleges of Teacher Education.

### Free of cost universities in Austria

Austria is a popular study destination and 29% of its international students come from Germany. The Austrian education system's institutions differ from each other in structure and academic goals. For instance, traditional and almost free universities like:

- \* FH Vorarlberg University of Applied Sciences
- \* University of Klagenfurt
- \* Johannes Kepler University Linz
- \* Central European University
- \* WU Vienna University of Economics and Business

Are you looking for colleges or universities in Austria? We are here to help you. Oasis Resource Management is one of the most highly-experts overseas education consultants in Delhi. Our consultants assist Indian students with all aspects of the admission process, starting from understanding their profile to advising them on applying best. Our consultants work closely with students to ensure that they choose the right program and University.

## UK Is Set To Gain The Best Talent From India With New Immigration Policy

As we navigate the new immigration rules, policies and procedures, it is imperative to recognise that even for experienced sponsors, there are changes coming in to play with the system that all will need to understand and navigate through.

Many of the positive changes in the new system will benefit employers supporting and sponsoring migrant workers in to the UK. This includes the ability to bring migrants in to a wider range of roles due to the lowering of skills levels and salary requirements and the ability to hire to meet demand without a cap on numbers. Agile, growing businesses and established international networks will want to take advantage of these changes.

UK and India signed an ambitious new migration partnership in May 2021, in an aim to make a major leap in the UK's bilateral relationship with India.

This professional and cultural exchange programme works in a similar manner to the current Youth Mobility Schemes, with India being the first visa national country (i.e., those countries which require visas to visit the UK) to profit from this. The agreement is meant to permit several 18-30-year-olds to work and live in each other's country for up to two years.

According to the most recent statistics, more than 98,000 Indian students came to the UK to study last year, up 90% on the previous year. In addition, the new post-study Graduate Route offers eligible graduates 2-3 years to stay back after studies in the UK – opened for applications in July 2021, offering yet another route for talented young Indians to build careers and experience in the UK, having previously cancelled the Post Study Work (PSW)

route in 2012.

The UK has struggled to fill positions in various industries since voting to leave the EU. In the absence of free movement and the rules thanks to the new points-based immigration system that places emphasis for workers based on education qualifications, skills, English language proficiency and salary, working closely with India may be mutually beneficial for both nations.

### Indians continue to relocate to the UK for work & study

Indian citizens have been the largest cohort of non-EU immigrants in the UK for several years and despite the pandemic hitting the world in 2020, Indians were granted more sponsored skilled-worker visas than any other group and typically, recent migrants occupy highly paid roles in the UK.

The UK is in need of workers across a range of professions such as key workers, hospitality, veterinarians, doctors, scientists, architects, artists and more—and will even permit employers to pay 20% below the threshold for visa eligibility for these roles depending on the salary.

Even the pandemic did not discourage Indian students from pursuing their needs of studying abroad. Between 2019 and 2020, 48% more Indians received Tier 4 student visas to the UK, while those granted to Chinese nationals—the largest international student population in the UK—fell by 56%. In 2021, 9,930 Indians applied to UK universities from 7,640 the previous year making a 30% leap. The good news is that there are now more options for Indian students in comparison to the last decade.

## US Embassy Made Changes In Study Visa Process

Even as thousands of Indian students firm up plans to study in universities in the US in the 2022 Fall season, the US embassy in India is planning a change in the visa application system for those applying in the summer of 2022.

“Last year we interviewed more students and issued more student visas in India than ever before. This year we hope the number of student visas will be even higher than the 62,000 issued last year. However, that will also depend on how well prepared the student visa applicants are,” Donald L Heflin, minister-counselor for consular affairs at the US Embassy in Delhi.

“Last year we faced two big problems; first because of the huge number of student visa applicants from India, our worldwide computer system crashed. Second, a large number of student visa interview slots were bought up by people who were not genuine applicants. Also, while in the first part of the season we had good and genuine students applying for visas; in the later part, last summer, many applicants who we interviewed were coming to us a second or third time having been refused student visas earlier. That was taking slots away from good students,” Heflin said.

The US government has now made software changes to ensure that students who are refused a visa once in the summer-spring of 2022 will not be able to seek another visa interview appointment again this year.

“We hope to address both the problems of non-availability of interview slots for good and genuine students as well as the blocking of slots by non-student agents, who don't show up for the interview, with these measures,” Heflin said.

## Now Filling For Canadian PR Will Become Costlier

Canada will be increasing the fees applicable for all permanent residence applications, starting April 30.

Permanent resident visa processing cost differs according to the immigration program you select to apply through. The fee increases will apply to economic, permit holder, family and humanitarian classes.

The Right of Permanent Residence Fee for the applicant and accompanying spouse or common-law partner has been increased by CAD15 to CAD515.

For those applying under Federal High Skilled, Provincial Nominee Program and Quebec Skilled Workers, Atlantic Immigration Class and most Economic Pilots, the following hike applies;

Applicants	Current Fee	New Fee
Principal applicant	CAD825	CAD850
Accompanying spouse or ommon-law partner	CAD825	CAD850
Accompanying dependent child	CAD225	CAD230

Fee for permanent resident cards, permanent resident travel documents and certification or replacement immigration documents will remain the same.

Fees are expected to increase in two years based on the applicable Consumer Price Index increase rounded to the nearest \$5. The next fee increase at the federal level is expected to be announced in 2024.

Canada, which plans to admit a record 432,000 new immigrants in 2022, is on target to hit this mark as the country welcomed 108,000 newcomers in the first three months of the year.

In 2021, nearly 100,000 Indians became permanent residents of Canada as the country admitted a record 405,000 new immigrants in its history. During 2021-2022, over 210,000 permanent residents also acquired Canadian citizenship.

**Canada Has Admitted Highest Immigrants From India In The First Quarter Of 2022**

Canada, which plans to admit a record 432,000 new immigrants in 2022, is on target to hit this mark as the country welcomed 108,000 newcomers in the first three months of the year.

"Canada is proud to be a destination of choice for so many people around the world, and we will continue to work hard to provide the best experience possible for them," said Sean Fraser, Minister of Immigration, Refugees and Citizenship, releasing the figures for the first quarter on Thursday.

"Canada is proud to be a destination of choice for so many people around the world, and we will continue to work hard to provide the best experience possible for them," said Sean Fraser, Minister of Immigration, Refugees and Citizenship, releasing the figures for the first quarter on Thursday.

In 2021, nearly 100,000 Indians became permanent residents of Canada as the country admitted a record 405,000 new immigrants in its history.

During 2021-2022, over 210,000 permanent residents also acquired Canadian citizenship.

As per figures released by Immigration, Refugees and Citizenship Canada (IRCC), it also issued 450,000 study permit applications. There are over 622,000 foreign students in Canada, with Indians numbering 217,410 as of December 31, 2021.

**US To Get New Ways To Cut Backlogs And Accelerate Work Permit**

The United States has announced the expansion of its "premium processing" service to include applicants for an Employment Authorization Document, in a bid to ease its multi-million case immigration backlog.

The Employment Authorization Document allows recipients to work in the U.S. while they seek asylum or other legal status. About 2 million people apply for new or renewed work permits each year, according to USCIS data. The process typically takes five to seven months.

Under the new rule, individuals seeking work permits can pay \$1,500 to have their applications considered within 30 days. The premium fee ranges up to \$2,500 for applications for other kinds of employment-related adjustments in legal status.

The USCIS oversees requests for work permits, asylum, green cards, U.S. citizenship and other immigration benefits, including the temporary H-1B program for highly skilled foreign workers.

The immigration agency has been struggling with backlogs, which was exacerbated by the Covid pandemic. As of February, USCIS was reviewing more than 9.5 million pending applications, a 66% increase from the end of fiscal year 2019, according to agency data.
